

Presented by Knowledge Partners:

Berkeley California-China Climate Institute

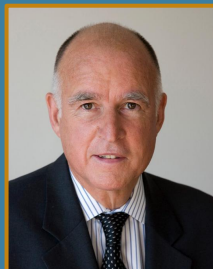

Energy, Climate & Sustainable Investment Symposium

A Virtual Global Action Network
September 22 & 23, 2020 (Americas)
September 23 & 24, 2020 (Asia)

Connecting global business leaders and renowned experts to accelerate climate impact

Symposium Co-Chairs

Governor Jerry Brown

Chair, California-China Climate
Institute, UC Berkeley

Bing Xiang

Founding Dean, CKGSB

Presented by Knowledge Partners:

Berkeley California-China Climate Institute

CKGSB and the **Berkeley California-China Climate Institute** invite you to join the inaugural **Energy, Climate & Sustainable Investment Symposium** --

connecting global business leaders with renowned thought leaders, policymakers and practitioners who are transforming the future of energy, climate policy and sustainable investment and development throughout the world.

Designed to amplify today's most urgent energy and climate challenges and opportunities, and accelerate global collaboration on solutions through network development, this **Virtual Symposium** offers actionable energy and investment strategies to define your sustainable future.

We hope you will join us in this important work!

New Energy Nexus

Berkeley is uniquely positioned to help these two world leaders address the pressing issue of climate change. Our faculty and researchers each day take on the peril of our changing climate and seek to develop new technologies and policies that will reduce greenhouse gasses across continents.

—Carol Christ, Chancellor of UC Berkeley

Presented by Knowledge Partners:

Berkeley California-China Climate Institute

SYMPOSIUM VISION

Creating a network of committed business leaders, renowned energy, climate policy, economics and investment thought leaders and practitioners to accelerate global collaboration, sustainable investment and development and global climate impact.
